TURNING 18? WHAT YOU SHOULD KNOW ABOUT SOCIAL SECURITY

Disability Benefit Programs

- Supplemental Security Income (SSI)
- Social Security Disability Insurance (SSDI)
- Both SSDI and SSI = Concurrent benefits

SSI Program

- Provides monthly income to people who are age 65 or older, are blind or disabled, and have limited income and financial resources.
- In 2020 the SSI payment for an eligible individual is \$783 per month and \$1,175 per month for an eligible couple.

SSI Continued

• Resource Limit - Financial resources (savings and assets you own) cannot exceed \$2,000 (\$3,000 if married).

 Medicaid – Effective from date of eligibility.

WHAT HAPPENS AT 18 YEARS OLD?

SSI – Age 18 Re-determination

All Supplemental Security Income
 (SSI) recipients, who turn 18 years old,
 must have their eligibility reviewed
 under the Adult Disability Rules. This is
 not considered a review, but a new
 application.

Pros & Cons Associated with the

Age 18 Re-determination:

- •Pros The SSI Beneficiary is applying on their own record and therefore parental deeming does not apply. The individual can qualify for the full federal benefit rate, if they contribute towards living expenses.
- •Cons If the SSI Beneficiary does not meet the criteria for disability, under the adult rules, then the Beneficiary will lose their SSI Benefits.

Preparation for the Age 18 Re-determination:

- Educate Students, Families, Teachers, and VR Staff should be given detailed, understandable information about the re-determination process and how it works.
- Gather information that would document the individual's disability, under the Adult Disability Regulations. (IEP's, Evaluations, Medical Reports, and letters of support).
- Gather contact information for providers including: Doctors, Therapists, Disability Professionals, Teachers, or others who would have information on how the individual functions.

Sample Letter of Support

November 10, 2016

Disability Determination Services 2550 Prospect Avenue Helena, Montana 59601

To Whom it May Concern:

My name is Margaret Keener and I am a Site Manager for North Central Independent Living Services Inc. (NCILS). This letter to express my support for Janie Doe in her application for Supplemental Security Income (SSI) based on her disabilities. I have known Janie for three years and worked with her on a weekly basis helping her to identify and address her Transitional Living needs. Janie has been diagnosed with a Cognitive Disorder as well as some Mental Health issues including Severe Depression and Anxiety.

In my work with Janie, I have observed her having difficulties with many of the aspects of day to day living. Some of these aspects include: difficulty with understanding and comprehension, struggles with reading comprehension and writing, difficulty focusing and completing tasks, memory issues, as well as isolation issues. Janie has a hard time understanding what she has been told or what she needs to do. Typically, Janie has to have instructions explained to her several times. For example, when Janie was told that she needed to bring information about her school schedule to her next appointment, I had to explain why five times before she understood that it was to help her qualify for a special program that is for her benefit. When filling out forms or applications, Janie is easily overwhelmed as she has difficulty understanding the questions being asked and how to respond. Janie needs hands on help to complete any forms or applications successfully. She is easily distracted which makes it difficult for her to focus and stay on task. When given verbal instructions, Janie is able to do tasks that have 1 - 2 steps, but for more difficult tasks with more than 2 steps, she needs constant reminders and redirection. Janie often struggles with her memory. She often forgets names, dates, appointments, what happened yesterday and what she is suppose to do for the current day. Again she needs constant reminders. Janie reports that she does not like being around others. It makes her feel uncomfortable and nervous which has lead to verbal altercations in the past with other students in school. Janie prefers to be in her room and not leave it for days at a time, often it can be difficult to get her to school and appointments.

After working with Janie for the past three years, I believe that she is unable to work at Substantial Gainful Activity. With the amount of support that she needs, even schooling or a part time job would be very difficult. If there are any questions, please feel free to contact me at (406) 452-9834.

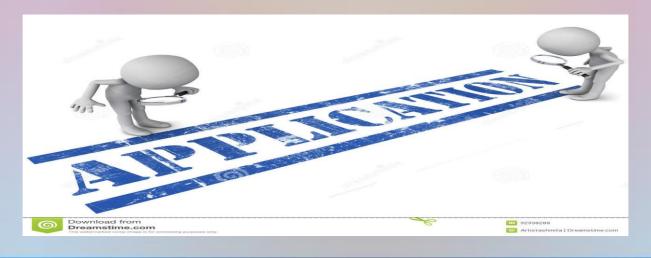

Respectfully,

Margaret Keener NCILS Site Manager

WHAT HAPPENS AT 18 YEARS OLD? Continued

SSI New Application -

If a person was not eligible for SSI before his/her 18th birthday, due to parents' income or resources. The person may now be eligible for SSI as an adult, at age 18.

WHAT HAPPENS AT 18 YEARS OLD? Continued

SSDI - Childhood Disability Benefit (CDB)

The SSDI program pays benefits to adults who have a disability that began before they were 22 years old. SSA considers this SSDI benefit as a "child's" benefit, because it is paid on a parent's Social Security earnings record.

Work Incentives

SSI Work Incentives:

- * Blind Work Expenses
- * Earned Income Exclusion
- * Student Earned Income Exclusion (Earn \$1,900 per month up to a total of \$7,670 per year).
- * Plan to Achieve Self-Support
- * Property Essential to Self-Support
- * Special SSI Payments to People who Work
- * Continued Medicaid Eligibility1619b (Threshold \$32,599).
- * Reinstating Eligibility Without a New Application

Work Incentives

SSDI Work Incentives:

- * Trial Work Period (\$910 benchmark)
- * Extended Period of Eligibility (\$1,260 SGA)
- * Continuation of Medicare Coverage
- * Medicare for People with Disabilities Who Work
- * Protection From Medical Continuing Disability Reviews

Work Incentives

SSI & SSDI Work Incentives:

- * Impairment-Related Work Expenses
- * Subsidies and Special Conditions
- * Un-incurred Business Expenses
- * Continued Payments Under a Vocational Rehabilitation Program (301)
- * Expedited Reinstatement

Work Incentives Important to Youth

Student Earned Income Exclusion:

* If a person is younger than 22 years old, regularly attends school and is working, SSA will not count earnings from employment for that individual. In other words, Social Security will not reduce the student's SSI payment. There are limits to this work incentive though; in 2020 students may exclude up to \$1,900 of earnings each month, with a limit of \$7,670 per year.

Work Incentives Important to Youth

Plan to Achieve Self-Support (PASS):

* A person who is at least 15 years old can save income and resources to pay for a vocational goal. This includes: education, supplies, services and other things that may be needed for the person to work successfully. Such an individual would get their full SSI payment, even though they have additional income or resources being saved or going towards their vocational goal.

Work Incentives Important to Youth

Continued Payment Under a Vocational Rehabilitation Program (Section 301 Payments):

* If you medically recover and no longer meet SSA's definition of disability, your monthly payments can continue. This is possible if you are actively participating in an approved Vocational Rehabilitation plan, called a Individual Plan of Employment (IPE). This Plan is expected to help you become self-supporting. If approved, your monthly SSDI/SSI payments can continue until you complete the plan.
